SUMMARY

First-year Computer Science and Engineering student with a CGPA of 8.81. Skilled in Python, C, C++, and Java with experience in AI-assisted application development, competitive programming, and software development.

EDUCATION

CGC University <i>B.Tech in Computer Science and Engineering (CGPA: 8.81)</i>	Mohali, Punjab 2025–2029
Hari Shankar Singh High School <i>PCM with Information Technology (82.6%)</i>	Jharkhand 2022–2024
Holy Family School <i>Secondary Education (91.4%)</i>	Jharkhand 2022

EXPERIENCE

Google Student Ambassador <i>Google</i> – Participating in AI initiatives, technical programs, and student community activities. – Creating awareness of AI tools and emerging technologies through community engagement.	2026–Present <i>Remote</i>
Campus Ambassador <i>Entrepreneurship Development Cell, IIT Delhi</i> – Contributed to entrepreneurship initiatives, workshops, and startup-focused programs. – Collaborated with students to promote innovation and problem-solving.	2025–2026 <i>Remote</i>

PROJECTS

RAILMIND <i>Python, AI</i> Live Demo – Developed an AI-assisted railway emergency intelligence platform for train monitoring, incident detection, and emergency alert generation. – Leveraged AI tools for rapid prototyping and system design.	2026
ATM Management System <i>Python</i> – Developed a console-based ATM application supporting deposits, withdrawals, and balance inquiries.	2026
Rock Paper Scissors Game <i>Python</i> – Built an interactive command-line game using conditional logic, randomization, and score tracking.	2026

COMPETITIVE PROGRAMMING

- LeetCode: Solved 55+ problems in Python focusing on algorithms and data structures.
- HackerRank: Achieved 4-Star in C and 3-Star in Python and C++; solved 40+ programming challenges across Python, C, C++, and Java.
- Codeforces: Solved 10+ competitive programming problems in Python.

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Object-Oriented Programming
- Programming Fundamentals

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, HTML, CSS
Computer Science Fundamentals: Data Structures, Algorithms, Object-Oriented Programming, Problem Solving
Tools: Git, GitHub, VS Code
Technologies: Firebase
Operating Systems: Arch Linux
